

Brief Introduction of Copper Rod Continuous Casting Machine

Shanghai Zeno Industry Co., Ltd. is a large scale enterprise that utilizes the latest technologies to manufacture professional grade Continuous Casting and Rolling Production Lines for copper/aluminum, Disc type Copper Anode Casting Machine, Natural Gas Type Tilting Copper Smelting Furnace, Natural Gas Type Shaft Type Copper Furnace, Various types of aluminum furnaces etc.

This machine is composed of power frequency undercurrent type cored melting and holding combined furnace, crystallizer device, cooling water system, double-flow servo traction system, online synchronous sawing machine and electrical control system, etc.
